Chemtrec: (800) 424-9300 Poison Center: (800) 562-8236 Revision Date: January 8th, 2019

SAFETY DATA SHEET

Identity: Lithium Oxide Formula: Li2O

SECTION I - GENERAL INFORMATION

Manufacturer: Super Conductor Materials, Inc.

The information below is believed to be accurate and represents the best information available to Super Conductor Materials, Inc. However, SCM makes no warranty, expressed or implied with respect to such information and assumes no liability resulting from its use.

SECTION II - HAZARDOUS INGREDIENTS/IDENTITY INFORMATION

Molecular weight: 29.88

<u>CAS # OSHA PEL ACGIH TLV %</u> 12057-24-8 NE NE 0.0 - 100.0%

SECTION III - PHYSICAL/CHEMICAL CHARACTERISTICS

Physical States: Solid

Boiling Point: 1200.00°C (2192.0 F) Vapor Pressure (vs. air or mmHg): N/A

Melting Point: 1427.00°C Density: 2.013 g/cm³ at 25.0°C

Evaporation Rate: N/A Flash Point: N/A

Solubility in water: 6.67 at 0.0°C (32.0 F)

Appearance and odor: White powder and pieces, no odor

SECTION IV - FIRE AND EXPLOSION HAZARD DATA:

Method Used: Non-flammable Explosive Limits: LEL: N/A UEL: N/A Extinguishing Media: Use suitable extinguishing agent for surrounding material and type of fire

Special Fire Fighting Procedures:

Firefighters must wear full face, self-contained breathing apparatus with full protective clothing to prevent contact with skin and eyes. Fumes from fire are hazardous. Isolate runoff to prevent environmental pollution.

Unusual Fire and Explosion Hazards:

- -If involved in a fire, lithium oxide may emit toxic fumes.
- -Strong Alkali.
- -Lithium oxide readily absorbs carbon dioxide and water from the atmosphere.
- -At elevated temperatures it attacks glass, silica and many metals.

SECTION V - REACTIVITY DATA

Stability: Stable

Conditions to Avoid (instability): None

Incompatibility: Water, steam

Hazardous Decomposition or Byproducts: Lithium hydroxide, oxides of lithium, lithium and hydrogen

gas.

Hazardous Polymerization: Will not occur.

Conditions to avoid (hazardous polymerization): None

SECTION VI - HEALTH HAZARD DATA

Routes of entry: Inhalation? Yes Ski

Skin? Yes

Eyes? Yes

Ingestion? Yes

Other? No

To the best of our knowledge the chemical, physical and toxicological properties of lithium oxide have not been thoroughly investigated and recorded.

The toxicity of lithium compounds is a function of their solubility in water. Lithium ion has central nervous system toxicity. The initial effects if lithium exposure is tremors of the hands, nausea, micturition, slurred speech, sluggishness, sleepiness, vertigo, thirst, and increased urine volume. Effects from continued exposure are apathy, anorexia, fatigue, lethargy, muscular weakness, and changes in ECG. Long-term exposure leads to hypothyroidism, leukocytosis, edema, weight gain, polydipsia/polyuria (increased water intake leading to increased urinary output), memory impairment, seizures, kidney damage, shock, hypotension, cardiac arrhythmias, coma, death.

Signs and Symptoms of Overexposure:

Inhalation: May cause a red, dry, burning throat, inflammation and pain throughout the respiratory tract.

Ingestion: May cause burns to the esophagus, nausea, muscular twitches and mental confusion.

Skin: May cause redness, itching, chemical burns and blistering.

Eye: May cause redness, itching, watering, inflammation and chemical burns.

Health Hazards (Acute and Chronic):

Inhalation:

Acute: SEVERE IRRITANT AND CORROSIVE. Causes irritation to the respiratory tract and mucous

membranes.

Chronic: May cause pulmonary edema and lung damage.

Ingestion:

Acute: SEVERE IRRITANT AND CORROSIVE. May cause central nervous system effects, circulatory

failure and cardiovascular collapse.

Chronic: May cause gastrointestinal irritation, renal disfunction, derangement of neuromuscular activity,

diabetes and kidney damage.

Skin:

Acute: SEVERE IRRITANT AND CORROSIVE.

Chronic: May be an irritant and corrosive.

Eve:

Acute: SEVERE IRRITANT AND CORROSIVE.

391 Spook Rock Industrial Park, Suffern, NY 10901 · 845.368.0240 · Fax 845.368.0250 · www.scm-inc.com

Chronic: May cause blurred vision.

Target Organs: May effect respiratory system, skin and eyes.

Carcinogenicity: NTP? No IARC Monographs? No OSHA Regulated? No

Medical Conditions Aggravated by Exposure: Pre-existing respiratory and skin disorders.

Emergency and First Aid Procedures:

Inhalation: Remove victim to fresh air, keep warm and quiet, and give oxygen if breathing is

difficult; seek medical attention

Ingestion: Give 1-2 glasses of milk or water and induce vomiting, seek medical attention. Never

induce vomiting or give anything by mouth to an unconscious person

Skin: Remove contaminated clothing, brush material off skin, wash affected area with mild

soap and water, and seek medical attention if symptoms persist

Eye: Flush eyes with lukewarm water, lifting upper and lower eyelids for at least 15 minutes

and seek medical attention.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to be taken in case material is released or spilled:

Wear appropriate respiratory and protective equipment specified in section VIII. Isolate spill area, provide ventilation and extinguish sources of ignition. Vacuum up spill using a high efficiency particulate absolute (HEPA) air filter and place in a closed container for proper disposal. Take care not to raise dust.

Waste disposal method:

Dispose of in accordance with state, local, and federal regulations.

Hazard Label Information:

Store in cool, dry area and in tightly sealed container. Wash thoroughly after handling.

Precautions: Lithium oxide readily absorbs carbon dioxide and water from the atmosphere. Handle and store in a controlled environment and in an inert gas, such as argon.

SECTION VIII - CONTROL MEASURES

Protective Equipment Summary (Hazard Label Information):

NIOSH approved respirator, impervious gloves, safety glasses, clothes to prevent contact.

Ventilation:

Local Exhaust: To maintain concentration at low exposure levels

Special: Handle in a controlled atmosphere Mechanical (General): Not recommended Other: Handle in an inert gas such as argon

Work/Hygienic/Maintenance Practices:

Implement engineering and work practice controls to reduce and maintain concentration of exposure at low levels. Use good housekeeping and sanitation practices. Do not use tobacco or food in work area. Wash thoroughly before eating or smoking. Do not blow dust off clothing or skin with compressed air.

Please be advised that N/A can either mean Not Applicable or No Data Has Been Established
